

## Chance Statements

<p>If I toss a coin 10 times, the result will be 5 heads and 5 tails.</p>	<p>If I roll an ordinary 6 sided dice, I will land on my lucky number 4.</p>			
<p>It will snow in July.</p>	<p>The last three times I flipped a coin, it landed on heads. The next time the coin will land on tails.</p>			
<p>In a box of 20 red and yellow bears, I will pull out a blue bear at random.</p>	<p>With a bag of 9 blue marbles, 2 red marbles and 3 yellow marbles, I will pull out a non-blue marble.</p>			
<p>In a family of 8 children with 6 boys and 2 girls, the eldest will be a boy.</p>	<p>If I roll a dice 100 times, I will get about the same number of 1s as 6s.</p>			
<p>Someone in this group could have a birthday tomorrow.</p>	<p>If I roll a dice, I will get a prime number.</p>			
<p>I will pick a picture card at random from a deck of cards.</p>	<p>It is just as likely to rain tomorrow as it is to rain the day after tomorrow.</p>			
<p><b>Certain</b></p>	<p><b>Impossible</b></p>	<p><b>Equal Chance</b></p>	<p><b>Likely</b></p>	<p><b>Unlikely</b></p>
