

Creating a whole school PE Plan

- During a staff meeting, examine the current PE plan
- Will PE be taught in 4 or 6 week blocks?
- Choose a suitable template from www.scoilnet.ie/pdst/physlit

- Is the PE plan a broad & balanced range of the PE curriculum strands?
- Choose the no. of FMS that can be taught in a year in accordance with pupil needs
- Select the FMS that will be embedded within a strand (pg. 17 MWMO TG)

- Take into account the use of external facilitators, PE hall availability/weather & other activities happening in the school year

- Consider how the new PE plan will be shared with the whole school
- Review the effectiveness of the PE plan regularly and at the end of the year
